## A

- ablative lasers, 104, 255
  - alternatives, 229
  - erbium:YAG, 99, 109–113, 217, 264
  - Fraxel fractionated CO<sub>2</sub>, 113
- abrading, 255
- Accent laser, 242
- Accutane, 255
- acetamidemonoethanolamine (MEA), 49
- acetic acid, 51
- acetone, 49, 65, 255
- acetyl hexapeptide-3 (argireline), 54, 258
- acetylated lanolin, 49, 255
- achiote seeds, 257
- acne (acne vulgaris), 201–202, 255
  - camouflage makeup, 192
  - chemical peels, 61, 68, 71
  - cystic, 262
  - esthetician's role, 210–211
  - grades 1–4, 202–203, 265
  - microdermabrasion, 81, 84
  - prevention, 203
    - bacteria treatment, 206–207
  - salicylic peels, 68
  - treatment, 203–206
    - isotretinoin, 207
    - light-based therapies, 207–208
    - photodynamic, 207, 208–209
    - steroid injections, 209
- actinic keratoses. *See* AKs
- active ingredients, 52–56, 255
  - versus* inactive ingredients, 48
- acylates copolymer, 51
- AdatoSil 5000, 134, 255
- adenoids, 255
- adrenal gland, 256
- adverse effects, 256
- aerobic exercise, 42
- aerobic state, 256
- Afrin, 256
- Agatson, Dr. Arthur, 40
- age management medicines, 38, 256
- age spots. *See* AKs
- aging, extrinsic *versus* intrinsic, 35
- aggressive *versus* progressive peels, 225
- AHAs (alpha hydroxy acids), 53, 62, 64–67, 256
- AKs (actinic keratoses)
  - cancerous lesions, 222–223
  - chemical peels, 74, 75, 255
- albumin, 256
- alcohol, 256
  - chemical peels, 65
  - solvents, 49
- Alexandrite laser, 99, 225
- alkanet, 50, 256
- Allergan, Inc, 134, 256
  - Botox, 155
- allergens, 256
- allergies
  - antihistamines, 257
    - benedryl, 258
  - aspirin, 67
  - skin care preservatives, 49
- alpha hydroxy acids. *See* AHAs
- alpha lipoic acid, 52, 256
- alpha tocopherol, 50
- aluminum oxide crystals, 82–83
- aluminum powder, 50

amberggris, 51, 256  
 aminoguanidin, 256  
 ammonium laureth sulfate, 51  
 Amphadase, 139, 256  
 anabolic steroids, 42, 256  
     Deca-durabolin, 262  
     Dianabol, 263  
 Anadrol, 43, 257  
 anaerobic bacteria, 257  
 anagen stage, hair, 257  
 androgens, 42, 257  
 anesthetics, 257  
     for dermal fillers, 140–141  
 aniline, 257  
 animal exudate, 257  
 annatto, 50, 257  
 anorexia, 44, 257  
 anovulation, 257  
 ANS (autonomic nervous system), 258  
 The Anti-Aging Solution, 40  
 antibiotics, 261  
 antibody/antibodies, 257  
 anticoagulants, 257  
 antifibrosis, 257  
 antigen-specific, 257  
 antihistamines, 257  
 antioxidants, 257  
     active ingredients, 52–53  
     age management medicines, 38  
     Beta Carotene, 259  
     preservatives, 50  
     skin appearance, 40–42  
 apnea, sleep, 37  
 apricot kernel oil, 49, 257  
 Aquaphor, 65, 257  
 arbutin (bearberry), 52, 224, 258  
 Argireline (acetyl hexapeptide-3), 54, 258  
 argon lasers, 99, 225, 258  
 Artefill, 135, 138, 258  
 ascorbic acid, 50  
 ascorbyl palmitate, 53  
 asphyxiation, 258  
 aspirin, 258  
     allergies, 67  
 astringents, 258

autonomic nervous system (ANS), 258  
 avocado oil, 54, 258  
 azelaic acid, 215, 224, 258

## B

bacilli, 258  
 bacteria  
     acne prevention, 206–207  
     anaerobic bacteria, 257  
     bacilli, 258  
 basal cell carcinoma, 221  
 basal metabolism, 258  
 B-cells, 258  
 BDD (Body Dysmorphic Disorder), 20–21, 44, 259  
 bearberry (arbutin), 52, 224, 258  
 beeswax, 49  
 beet powder, 50, 258  
 Benadryl (diphenhydramine), 258  
 bentonite, 51  
 benzoyl peroxide (BPO), 215, 258  
 beta carotene, 50, 53, 259  
 beta hydroxy acids, 259  
 betacaine, 140, 259  
 beta-D carotene, 54  
 BHAs (salicylic acids), 53  
     aspirin allergies, 67  
     chemical peels, 62, 67–70  
 binges, 259  
 bioflavonoids, 259  
 biohazard containers, 27–28  
 blackheads, 192, 259  
 blepharitis, 259  
 blepharoplasty, 171–172, 259  
     postoperative daily care/activity, 172–174  
     postoperative effects, 174–175  
 blepharospasm, 259  
 blood sugar levels, 40  
 bloodborne pathogens, 25, 27, 259  
     decontaminaton, 26  
     exposure procedures, 28  
 Body Dysmorphic Disorder (BDD), 20–21, 44, 259  
 botanical substances, 259  
     nutrition, 41  
 Botox Cosmetic, 256

- Botox treatments, 145–147, 150, 256
  - competitive products, 155
  - complications, 151–152
  - concerns, 153
  - current uses, 148, 149
  - esthetician's role, 155
  - maintenance, 153–154
