SPF (sun protection factor), 19
DHA effect, 389
ratings, sun care products, 379–380

sun protection factor. *See* SPF

sunscreens/sun care products

- chemical absorbers, 374–376
- formulations, 376–379
- outlook, 379
- self-tanners, 381–382
 - quantification, 387–388
- self-tanners, DHA (dihydroxyacetone)
 - chemistry, 384
 - discovery/acceptance, 382
 - formulations, 385–386, 388–392
 - ingredients, 386–387
 - regulations, 466–467
 - structure, 382–383

SPF ratings, 379–380

- DHA effect, 389

testing, 379

UV (ultraviolet) light effects

- hair, 374
- regulations, 466
- skin, 373–374

suppliers, 12

- careers, 9–10
- and chemists, 68–69
 - idea/trend generation, 68–69
 - new ingredients, 65–66
 - samples, evaluating, 66–67
 - samples, requesting, 66
- cosmetics industry role, 63
 - vendor view, 64–65
 - working relationships, 70
- and purchasing departments, 69–70
- raw materials, 4
 - specifications, 68
- sales calls, 65
- technical support, 67
- technical testing, 68

surfactants, 15

- amphoteric, 107, 109, 111
- anionic, 107, 109
- cationic, 107, 108, 111
- fragrances, 297–299
- natural oils, 126–128
- nonionic, 107, 108, 111
- physical chemistry, 103–105

- properties, 111–115
- solutions, 105–106
- structure/function chart, 110

sweat glands/sweating, 87–88. *See also*

- APDs (antiperspirant/deodorants); skin
- axilla microbiology, 92–93
- bad order precursors, 90–92
- odor controls, 397
- odor formation biochemistry, 93–94, 396–397
- odor perception, 94–95
- sweating process, 88–90, 395–396

T

testing. *See* product development, testing

- cosmetic products, 234–235
 - functionality tests, 439, 440–441
 - physiochemical tests, 437–439
 - regulations, 439
- preservatives
 - accelerated testing, 447–448
 - ADC (accelerated double challenge) test, 444, 445, 448–453
 - ASTM (American Standards of Testing Materials), 444
 - CTFA (Cosmetic Toiletry and Fragrance Association), 444
 - PET (preservative efficacy testing), 443–447
- product development
 - laboratories, 4
 - terminology, 17–18

TEWL (transepidermal water loss) testing, 18

TGA (Toilet Goods Association), 459
